

21 - 22 October 2019
Aotea Centre, Auckland CBD

Get your brand in front of the DevOps community at DevOpsDays Auckland 2019!

DevOpsDays is a worldwide community conference series, now in its 10th year, hosting over 70 conferences in 2019.

The DevOpsDays conference in NZ has gone from strength to strength over the last three years. Growing to over 350 attendees in 2018, we are aiming for similar numbers for 2019 in Auckland. Attendees come to share, learn, laugh and be inspired. DevOpsDays Auckland includes contributors from across the software delivery, quality assurance, security, operations and management spectrum.

This year we're excited to be at the newly refurbished Aotea Centre. We're confident this will provide a great experience for our sponsors.

After the success of the last three years, we've brought on a professional event manager and marketing expert to take DevOpsDays to the next level.

All DevOpsDays events are independently organised. DevOpsDays Auckland is brought to you by DevOps Events Limited, an NZ-based company formed to organise and support community-focussed not-for-profit DevOps events. Sponsorship is the main source of funding for the conference, with registration fees kept low (\$199-\$299) to encourage broad community participation.

DevOpsDays brings an opportunity to expose your brand to the DevOps community across NZ - whether you're looking for talent, wanting to extend the reach of your brand or just show the latest and greatest wares.

Sponsoring DevOpsDays in Auckland provides a unique occasion to interact with technology professionals and gives your representatives a chance to connect with participants.

Don't delay - we've got lots of repeat sponsors from last year and have sold out of sponsorship slots twice in the last three years.

Email sponsor@devopsdays.nz to support this exciting conference!

CONDITIONS

Sponsors will be required to follow the event's [code of conduct](#). This applies to giveaways, items and images at your table, the behaviour of your staff, etc.

Sponsors are never given attendee contact info by a DevOpsDays event's organisers, nor are they allowed to purchase speaking slots for talks or ignites.

Sponsors are encouraged to represent themselves by actively participating and engaging with the attendees as peers. Any attendee also has the opportunity to demo products/projects as part of an open space session, but this is not 'that kind of conference' and heavy marketing will probably work against you when trying to make a good impression on the attendees. The best thing to do is to send engineers to interact with the experts at DevOpsDays on their own terms.

Note: Exhibiting sponsors may need to provide evidence of their own Public Liability insurance.

2018 DEVOPSDAYS NZ CONFERENCE

Jessica DeVita @DevOpsDaysNZ on Twitter

Huge thanks to @DodNZ and @devopsdaysnz organisers and volunteers for an incredible experience. Best conference I've been to in 2018!

Diversity at DevOpsDays Wellington

Every week, I see a solid line of great examples of minority groups. But I see more because I value diversity.

Allen Geer on Twitter

*@DodNZ and the rest of the @devopsdaysnz organisers put on a wonderful (inspired), interesting, safe, and educational conference for the New Zealand DevOps Community! A fantastic job and thank you to all the folks who made this week possible. #Brangawrewee
